15 November 1988

Engineering and Design
DATA BASE FOR AUTOMATED GEOTECHNICAL INSTRUMENTATION

1. Purpose. This letter transmits the data base of automated geotechnical and some structural instrumentation at Federal and non-Federal projects. The information is current through 1 July 1988 and will be updated on a yearly basis.
2. Applicability. This letter is applicable to all HQUSACE/OCE elements and field operating activities (FOA) having civil works responsibilities. Points of contact are listed to enhance technology transfer and experience level within USACE elements.
3. Background. This data base was prepared under the Corps of Engineers Computer Applications in Geotechnical Engineering (CAGE) Program. Additional data for projects and systems may be added at any time by furnishing appropriate information to CEWES-GR (Strohm). Points of contact are Arthur H. Walz, HQUSACE, CEEC-EG, 202-272-0209, William E. Strohm, CEWES-GR, 601-634-2604, or Earl V. Edris, CEWES-GE, 601-634-3378.

FOR THE DIRECTOR OF ENGINEERING AND CONSTRUCTION:

Encl

HERBERT H. KENNON
Chief, Engineering Division
Directorate of Engineering and
Construction
